Bridal Preparations

Our full day filming package offers bride and groom preparation coverage one hour before the wedding ceremony.

Our filming goal is to capture the naturally occurring events as the bride and groom prepare with their close friends and family.

This is a great way to start your wedding film with behind-the-scenes shots of everyone getting ready.

The Wedding Service

The Wedding Service

The wedding ceremony is carefully filmed using multiple, Panasonic Lumix 4K resolution cameras.

This produces a variety of interesting shots such as wide shots and close ups. Your film will look like a TV production with the different camera angles.

Your vows are clearly captured by placing small but very sensitive DJI lapel microphones to both the groom and officiant/celebrant.

Professional microphones and sound equipment record any hymns, choirs and guests delivering readings.

We do like to attend church rehearsals (wherever possible).

The Wedding Photographs

The Photographs

Having multiple cameras enables us to film both the formal wedding photoshoot with your family and friends but also more candid shots of your guests chatting and relaxing.

We try to film a close-up of every guest present at the wedding.

We always work closely with the official photographer to film you group shot and confetti shot.

We also capture your wedding breakfast table lay out, place settings, flowers, table decorations and table details.

The Wedding Speeches

Website: whiteoakweddingfilms.co.uk

Mobile: 07305 075519

Email: whiteoakweddingfilming@gmail.com

The Speeches

We film the wedding speeches with multiple camera angles and each person making a speech would ideally wear a wireless lapel microphone to clearly capture their speech.

Other professional microphones and recording equipment are also used. Sometimes the venue or DJ will provide a microphone for the speeches which will provide an ideal level of volume for filming.

Filming of the speeches would be filmed from an area and position that would not hinder the view of your guests.

Mobile: 07305 075519

Email: whiteoakweddingfilming@gmail.com

The Evening Reception

We film the evening guests arriving, the cutting of the wedding cake, the first dance and early disco dancing.

*We can also offer your guests the opportunity to record their well wishes to camera.

These personal messages are usually recorded in a quieter part of the venue with a key friend or family member organising those involved.

*Small extra cost

* Drone filming

We like to use our DJI drone to film your wedding venue and outside setting.

This is subject to the weather and venue permission.

We are registered, fully qualified and insured to carry out this type of filming.

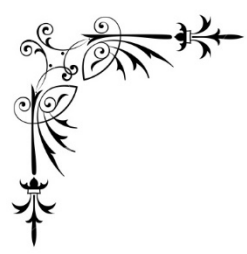

*Small extra cost

Booking your wedding date

To book our services all we require is a £50 booking fee.

We do carry out home visits where we can show you a selection of recently filmed and completed wedding films and answer any questions.

We would also ask you to identify up to six of your most favourite music tracks to use in the editing of your wedding film.

We usually film with one camera operative but may use a second camera person with larger venues.

We are also fully insured with Public Liability insurance.

Thank You

David, Tina & Dom
